Discover a superior solution to improve your skin complexion, reduce skin irregularities and reveal a younger looking you all in one treatment.

## RESURFACE YOUR SKIN & REMODEL COLLAGEN

*“It has brought a restorative look to my skin and I feel really good. I have achieved that youthful glow that I was hoping to get, and I’m really happy.”*

- RUTH | PATIENT

### WHAT IS FRACTORA?

Fractora skin treatment is a fractional resurfacing treatment that remodels collagen to help restore skin to its youthful appearance. Fractora lets you look and feel younger.

### WHAT AREAS CAN BE TREATED?

Fractora can be used on any area that can benefit from skin resurfacing. The most commonly treated areas include: lower eyelid, upper eyelid, smile lines, forehead, cheeks, mouth and neck. Face and body areas that exhibit aging skin, discoloration or acne scarring are suitable for treatment.

### HOW MANY TREATMENTS WILL I NEED?

Depending on your Fractora treatment regime you can expect to have between 1-6 sessions.

### HOW QUICKLY WILL I SEE RESULTS?

Visible results can be seen immediately, but typically after two weeks the most noticeable results appear. Improvements continue up to three months after treatment.

### WHAT IS THE BENEFIT OF FRACTIONATED ENERGY?

Fractionated RF energy found in Fractora is a scientifically proven method to remodel skin. It is minimally invasive, using a matrix of micro pins to resurface the skin, providing exceptional results with almost no patient downtime.

### CAN ANYONE USE FRACTORA?

The benefit of Fractora’s color blind technology is that it can be used on all skin types. The unique properties allow even darker tones to receive treatment.

### WHAT IS THE BENEFIT OF RF ENERGY?

RF energy heats the deep layers of the skin in a controlled way to revitalize the collagen. The treatment will improve skin complexion and texture for a more radiant and youthful appearance.

### CAN THIS BE USED IN COMBINATION WITH OTHER TREATMENTS?

Fractora can be used in the same treatment session, or a few days after other treatments. Fractora can also be combined with additional InMode energy treatments or injectables to achieve a more extensive full face result.

### WHEN CAN I PUT MAKE-UP ON AFTER TREATMENT?

Since patient downtime is minimal, makeup can be applied 1 to 2 days after the treatment. Patients should expect to see micro lesions a few days after treatment and slight redness for up to 1 week depending on treatment parameters.

### WHAT KIND OF POST PROCEDURE CARE IS REQUIRED?

Patients should moisturize the treatment area and avoid direct sun exposure. It is also recommended that patients use a good, broad spectrum sunscreen every day. In addition to reducing their future risk of skin cancer, sunscreens also reduce wrinkles and slow the aging process.
